AUSTRIA. ENVIRONMENTALLY CONSCIOUS

© Austrian Wine-Blickwerk Fotografie

Environmental protection, biodiversity and the responsible use of natural resources have always been important concepts in Austria. Furthermore, strict legal provisions, combined with small, family-run wineries, result in a strong drive to preserve the ecosystem and ensure suitable conditions for future generations.

For the past few decades, Austria's agricultural policy has had a strong environmental focus, including strict regulations and subsidies aimed at erosion control and avoiding the use of herbicides and insecticides. Thanks to organic winegrowing being particularly widespread, together with the "Nachhaltig Austria" (Sustainable Austria) certification, Austria is a global leader in terms of environmentally conscious viticulture.

CERTIFICATIONS AND PRODUCTION METHODS

20% of area under vine

Nachhaltig Austria (Sustainable Austria)

SUSTAINABLE AUSTRIA

"Nachhaltig Austria" logo

Founded by the Austrian Winegrowers Association (Weinbauverband Österreich), this label is awarded to sustainable wine producers. Around 360 measures across nine categories (climate, raw materials, energy, soil, biodiversity, water, quality and both social and economic factors) are assessed using a unique, scientifically developed online tool. Producers enter their own data for evaluation. Certification is awarded if the winery meets the (continually rising) targets in the tool and passes an inspection by an external body.

22% of area under vine

Organic Viticulture

The "EU organic" logo

The "EU organic" label guarantees the quality of products grown in compliance with the guidelines of the EU organic production regulation. Compliance is assessed annually by officially accredited inspection bodies. Organic viticulture centres around the promotion of healthy soil by advocating responsible soil cultivation methods and plant protection products of natural origin, with the aim of strengthening the resistance of the vines. The use of herbicides, synthetic chemical pesticides and genetic engineering is prohibited.

3% of area under vine
15% of all organically cultivated vineyards

Biodynamic Viticulture

"Demeter" logo

"respekt-BIODYN" logo

Biodynamics is rooted in the work of the Austrian anthroposophist Rudolf Steiner and revolves around the fundamental principle of a self-contained, self-sufficient farming cycle. Two associations in Austria, Demeter and respekt-BIODYN provide members with guidelines on growing wine biodynamically. Organic certification is a prerequisite. Although Demeter operates internationally, Demeter Austria sets additional targets. Founded in Austria, respekt-BIODYN represents members in 4 countries who strive to produce wine of the highest individuality and quality.

FU = Furmint	PI = Pinot Nova	WR = Welschriesling
FV = Frühroter Veltliner	PN = Pinot Noir	ZF = Zierfandler
GL = Goldmuskateller	(Blauburgunder)	ZW = Zweigelt
GO = Goldburger	RR = Riesling	

Further abbreviations

AL = Alcohol

RS = Residual sugar

AC = Acidity

TYP = Wine types - explanation see page 2

TBA = Trockenbeereauslese

Ried = Legally defined single vineyard site

“1ÖTW” = Wines from the best vineyards, defined by the Association “Österreichische Traditionsweingüter” (“Erste Lage”). Classification not anchored in the Austrian wine law.

“1STK” = Wines from premium vineyards defined by the Association „Steirische Terroir- und Klassikweingüter“ (“Erste STK-Lage”). Classification not anchored in the Austrian wine law.

“GSTK” = Wines from the most prized vineyards defined by the Association „Steirische Terroir- und Klassikweingüter“ (“Große STK-Lage”). Classification not anchored in the Austrian wine law.

Type 1: Perlweine & Sekte

Austria can look back on a venerable tradition of sparkling wine, one that dates back to the 19th century. Our specialists in the sparkling sector include private producers, as well as large Sekt houses. Whether Sekt Austria (PDO) of the basic category or the traditionally vinified pétillant naturel (Pét Nat), these wines are ideally suited not only to the classic role of apéritif but also prove their versatility as dinner-table companions. Fruit and refreshment share the foreground in these easily drinkable light sparklers (Perlwein) and Sekts.

Type 2: Sekt Méthode Traditionelle

Traditional bottle fermentation is the most time-consuming and costly process for making sparkling wine: it takes a lot of time, and the typical ‘riddling’ of the bottles during ageing is often performed by hand. Austria’s top products – especially Sekt Austria (PDO) Reserve and Grosse Reserve – are produced according to this method. The result turns out as characterful and highly elegant Sekts, which do not need to fear any international comparisons.

Type 3: White wines - classic & refreshing

Classic white wines from Austria get top marks for their freshness and fine acidity – which they combine with considerable elegance in a middleweight frame. These can be found in all our winegrowing regions: refreshing and regionally typical Grüner Veltliner & Riesling from the regions along the Danube River, peppery Weinviertel DAC, delicious Wiener Gemischter Satz DAC, classic Weissburgunder & Chardonnay from Burgenland or spicy Welschriesling & Sauvignon Blanc from the Steiermark. Youthful wines such as Junger Österreicher, Steierischer Junker or Junger Wiener are the first to appear on the calendar in the classic & refreshing category, and can be tasted soon after the harvest.

Type 4: White wines - powerful & opulent

These stars of Austrian white wine culture are vinified dry, exhibiting body and extract, opulence and concentration. In addition to the majority of classically elaborated wines, here you will also find wines matured in barrique with a bit of an international accent. Among the elite one finds single-vineyard wines vinified from Grüner Veltliner and Riesling (like Smaragd bottlings from the Wachau), and top wines from regions along the Danube or from the Weinviertel. Other very distinctive vinous personalities include robust Zierfandler and Rotgipfler from the Thermenregion, as well as complex Weissburgunder and Chardonnay from Burgenland. This category is rounded out by the great single vineyard wines from the Steiermark (Sauvignon Blanc, Morillon, Weissburgunder & Grauburgunder), as well as specialties such as Neuburger, Roter Veltliner and the Gemischter Satz from Vienna.

Type 5: Rosé wines

Rosés are produced in all winegrowing regions of Austria and assume many forms: charming, youthful wines from Burgenland, or fresh stylings vinified from Zweigelt and Sankt Laurent in Niederösterreich, all the way to racy Schilcher from the Weststeiermark (some designated as a regionally protected Weststeiermark DAC). Burgenland also has its own protected appellation of origin for fruity-fresh and spicy rosé wine: Rosalia DAC Rosé.

Type 6: Red wines - classic & elegant

Red wines in the classic style – with *élevage* either in large wooden cask or steel tank, with typical Austrian fruit but also plenty of depth, without being too high in alcohol – which express the typicity of their origins, with elegance and an inviting nature. Zweigelt plays an important role, since it grows quite happily in almost all viticultural regions – though Carnuntum comes up first here – and classically vinified Blaufränkisch can also be convincingly distinctive. This group is rounded out by specialties such as Sankt Laurent, Blauburgunder (Pinot Noir), Blauer Portugieser & Blauburger.

Type 7: Red wines - intense & opulent

These are red wines that possess opulence, concentration, complexity and depth, vinified either as single varietal wines or as *cuvées*. Even with aging in *barriques*, these top wines are characterised by the typical depth of fruit characteristic of their *terroir*. The premiere destination for red wines of this sort is Burgenland – although top red wines can also be found coming from Carnuntum, the Thermenregion or even Vienna. It is satisfying to note that our typical Austrian grape varieties such as Blaufränkisch & Zweigelt might even do just a bit better here than classics like Pinot Noir and the international varieties Cabernet & Co.

Type 8: Alternative wines

A precise definition of ‘Orange Wines’, ‘Artisan Wines’ or ‘Natural’ wines – often referred to collectively as ‘Alternative Wines’, does not exist. What they have in common, however, is that they often develop as far as possible without human intervention during their process of becoming wine. Owing to oxidative development and/or extended maceration time, the white wines will also develop a distinct tannin structure – and even some colour from the skins – in combination with fresh acidity and earthy fruit. Growers who produce exceptional wines in these new – or actually old – ways can be found in all of Austria’s winegrowing regions.

Type 9: White wines - off-dry & medium-sweet

Wines in the upper Spätlese or Auslese class rank among the most ageworthy wines in Austria. In their youth they exhibit a great deal of *finesse*, combined with supple residual sweetness and a lively interplay between fruit and acidity. The palette ranges from Muskat Ottonel or Welschriesling from Burgenland, via (Gewürz)Traminer from the Steiermark, Grüner Veltliner and Riesling from various winegrowing regions, to the great Spätlesen or Auslesen vinified from the specialty varieties Zierfandler and Rotgipfler in the Thermenregion.

Type 10: Nobly sweet wines

These include Beerenauslese and Trockenbeerenauslese, as well as the classy and refined Ruster Ausbruch. These rare sweet wines are characterised by ample residual sugar and highly concentrated acidity, usually in conjunction with the distinctive aroma of noble rot (*Botrytis cinerea*). Such wines continue to develop in an exciting way over a long period of time and have great ageing potential – and Austria plays here in the Champions League. Eiswein with expressive, luxuriant fruit and sizzling acidity – as well as Strohwein and Schilfwein, which exhibit flavour profiles between *Botrytis* and Eiswein – also belong to this category.

The power of three

Three generations, three siblings, three spirits united: Maria, Ewald and Christian have found common ground in the family-run business in the western part of the Weinviertel region: wine. Whether in the vineyard, the wine cellar or in sales, each sibling concentrates on what they love and know best at the Gruber Röschitz winery. Wonderfully crisp Grüner Veltliner, fruity Riesling and delicately balanced St. Laurent and Pinot Noir grow in the organically cultivated micro-cosmos in Röschitz, Lower Austria. Granite, loess and clay soil as well as an airy and warm climate ensure unique freshness and minerality with fruitiness on the palate. The harmonious family atmosphere, combining traditional knowledge and new ideas, lends the wines a unique and harmonic character.

WEINGUT
BRÜNDLMAYER
LANGENLOIS – ÖSTERREICH

Bründlmayer manages vineyards in the best locations around Langenlois. All of the vineyards have been cultivated sustainably since 1979 and in a biological-organic fashion since 2015. Among the Grüner Veltliners are stars like "Loiserberg", "Lamm" and "Käferberg". Among the Rieslings "Steinmassl" competes with the elegantly structured "Heiligenstein". The "Alte Reben" and "Lyra" of the Heiligenstein embody terroir and concentration. Hugh Johnson quotes "Bründlmayer Brut" as "Austria's Best Sekt". Zweigelt, Pinot Noir and Chardonnay belongs to Bründlmayer's acclaimed specialities as well as the rare sweet wines. "Almost every wine, from the lightest Grüner Veltliner to the red wine and the sparkling wine has what it takes to be the best of the vintage in its category." (Falstaff)

JURTSCHITSCH
Langenlois

Tradition and experience knowledge of parents and grandparents is the basis and strength of every family winery. Nevertheless, the future lies in the hands of the young winemakers. Each generation of winegrowers has to discover its terroir anew and interpret it for itself personally.

The research drive of Stefanie and Alwin Jurtschitsch goes far beyond the classic organic guidelines. Thus, intelligent solutions for the future of sustainable farming are sought and researched. Alwin and Stefanie Jurtschitsch produce some of the most exciting white wines in the Kamptal. They are not loud, opulent wines - but understatement is the order of the day. Vibrant and energetic, both the classical Cru wines and their natural wines precisely tell the story of their origin and the winemaker.

WESZELI

The Weszeli winery is located in one of the most exciting wine-growing regions in Austria. Langenlois in the Kamptal is not only geologically very diverse, climatically it is also at the intersection of different zones of influence.

30 hectares of vineyards are cultivated according to biodynamic principles. Handicraft is very important to the winemaker Davis Weszeli.

Terroir wines are aged in the cellar for at least 3 years to give them stability and longevity.

They are only released when they have reached their first peak of maturity. Wines full of character with a high enjoyment factor are the result of the work.

The winery is in the process of converting to biodynamics according to Demeter guidelines and the wines are certified organic and vegan.

Christoph Hoch
Winzer aus Hollenburg a.d. Donau

The winemaking history of Christoph's family can be traced back to the year 1640. He has chosen an uncompromising path. The bedrock of the "Hollenburger conglomerate" is limestone-based and allow to produce structured, attenuated wines with a low alcohol content. To create exceptional Grüner Veltliner he employs the traditional methods - winemaking as well as cultivating biodynamic, certified Demeter.

The Hollenburger Grüner Veltliner expresses through virtue and liveliness, using only wild yeasts and grapes from our biodynamic vineyards. A wine given to us by nature. Two different cellars, but one way: a serious natural white wine. The base wine is a cuvée of different vintages. Spontaneously fermented in used oak barrels without any additions. Nature from the roots into the glass.

Around 400 years of family tradition, a philosophy of viticulture bound up with nature, and innovative "esprit" are the cornerstones for wine growing at WEINGUT CHRIST. The vines, the most important capital assets, stand on the gentle, south-facing slopes of the Bisamberg, on the north-eastern boundary of the city of Vienna. The geological variety is unique, and stretches from alluvial, ice-age, terraced gravel, through weathered chinks interspersed with limestone, to layers of loess and slate. At the end of the day this balance between vineyard and cellar delivers fine wines full of character with great structure, which will melt in the mouths of friends of high-quality wines.

NeueHeimat

In the beginning there was friendship. It was the friendship of Ton Goedmakers and Uli Kaltenböck, who met at a hotel bar in Lech am Arlberg in the 1990s and realized their dream of making their own wine. By free decision and with great passion, they committed themselves to southern Styria, where they started the Goedwinemakers enjoyment project with family and friends. Together we have created a lot and moved a lot, sometimes also doubted and cursed. But we have never lost the will and the joy of what we do here: making good wine. And that is why, since 2015, Bastian Kaltenböck, who now runs the winery, and cellar master Christian Söll have continued to write their own story at the 11 ha organic farm. This new chapter now bears the name Weingut NeueHeimat.

WINKLER-HERMADEN

The family owned winery is located in southeast Styria only few kilometers from the Slovenian and Hungarian borders. The vineyards of the Winery are planted on the steep slopes of a volcanic cone. Thirteen different grape varieties thrive on 37 hectares and are now husbanded by the third generation according to organic guidelines. Sauvignon Blanc and the Burgundian grapes like Pinot Blanc, Pinot Gris and Morillon (the Styrian name for Chardonnay) receive special attention here. Rather unusual for Styria, but surprisingly successful, are the red wines from Pinot Noir, Blauer Zweigelt, Merlot and Cabernet Sauvignon. To round out the assortment, the winery also offers Welschriesling, the most familiar Styrian grape variety, and Traminer a specialty particularly successful on volcanic soil.

Hannes Reeh: young, modest and uncomplicated, stands for an easy-going style of life; he is self-confident, and diligently follows his goals, yet is always laid back and relaxed. The place, where the unconventional winemaker performs, is located in the wine-growing area of Neusiedlersee in Burgenland. Andau lies in the most eastern corner of Seewinkel, directly on the Austro-Hungarian border. The village has one decisive unique feature; with 2,400 hours of sunshine per year, it boasts to be the most sunny town in Austria. With lots of intuition and a natural touch, he does what he enjoys most and has a great deal of success with it. Zweigelt is his favourite variety, and makes up some 60 % of his vineyards.

The history of the Esterhazy Winery begins with the construction of the wine cellar in the Esterhazy palace in Eisenstadt over 300 years ago. New standards were set at the latest when Monsieur LeBon, a cellarmaster from Burgundy, entered the service of the Esterhazy princes in 1758.

In our cellar, we take an unbiased approach and work with different wine vessels such as eggs, amphorae, barrels and sustainably produced wooden barrels made from local Leithaberg oak. We want to find the best possible ways of maturing in order to produce wines that are typical of their region and variety at an absolute top level, which always bear a very clear Esterhazy signature.

ERNST
TRIEBAUMER

18 hectares of vineyards on the Rust Hills mostly southeast slopes. Main varieties: Blaufränkisch, Cabernet Sauvignon, Chardonnay, Gelber Muskateller, Sauvignon Blanc. As a long-established artisans and small farmer family we both our ancestors and our soils are committed to Respect for nature-minimal use of chemicals, no herbicides, no fertilizer, no irrigation. Healthy soils, vital vines, grape quality, meticulous hand-picking, gentle maceration, gentle winemaking, wines full of character. For the purposes of conserving resources we want to continue to carry out our work according to these simple guidelines.

schiefer pur

Uwe Schiefer, one of the top producers of the wine growing region Südburgenland, works on a 15 hectares mainly located on the finest vineyard of the region, the "Eisenberg", a steep schistous hillside and nearly all planted to the local grape Blaufränkisch. His aim is to take out the special character of the soil, clay with a big amount of iron, in his wines without using modern technology. The grapes are handled very carefully and he obtains from any filtration and fining.

AUSTRIAN WINE BROCHURES

REGIONAL & IMAGE BROCHURES

The wine country of Austria offers a wide variety of landscapes, grape varieties and wine styles. The information brochures summarize the most important facts in a compact way: discover the 7 elements that are responsible for the uniqueness of Austrian wines. Find out more about Austria's „Liquid Gold“, the typical grape varieties of the country or sparkling Sekt Austria (PDO). Or delve deeper into Austria's wine-growing regions with the comprehensive regional brochures.

TRAINING MANUAL

Training manual „Austrian Wine in Depth“: Anyone who wants to succeed as a specialist in the constantly changing world of wine must continue to educate themselves. With the current version of our training manual, we offer a compact compilation of the most important information for both professional and private wine lovers who want to update and deepen their knowledge of Austrian wine.

CULINARY BROCHURES

Due to their compact body and the climate-related freshness, Austria's wines are ingenious accompaniments to a wide variety of dishes and cuisines - from schnitzel to sushi, from pasta & pizza to the finest cheeses in the world. In our culinary brochures you can find out which Austrian wines go best with which dishes. Cheers & enjoy!

riedenkarten.at

ENTDECKEN SIE DIE HERKUNFT ÖSTERREICHISCHER WEINE

Riedenkarten.at: Noch nie waren Informationen zur Weinherkunft so transparent dargestellt. Der digitale Weinatlas zeigt für jede Ried (Einzellage), jeden Ort und jedes Weinbaugebiet Daten zu Weinbaufläche, Rebsorten, Seehöhe, Hangneigung, Ausrichtung, Durchschnittstemperatur, Niederschlagsmenge und Sonnenscheindauer – und vieles mehr!
