## **Welcome to the Austrian Flight Tasting Moscow - The Winemaker's Edition!**

World Premiere: for the first time we are presenting a set tasting in flights in Moscow!

The advantages of this format are numerous: you can choose from 32 Austrian winemaker flights and three special flights covering nearly all wine growing regions of Austria. You can examine each flight as intensively as you wish and you can learn more and more about Austrian wine.

Your safety during the tasting is our biggest concern. So please keep a safety distance and wear a mask in all the common areas. Also, please make use of the various disinfection dispensers placed around the venue. Thank you.

Many thanks to the Austrian Trade Commission in Moscow, led by Rudolf Lukavsky (Austrian Trade Commissioner), Dina Khvan and Alina Kurilova. We have been able to rely on their long-standing expertise during the implementation of the tasting. In addition, I would like to thank my team – especially Michael Zimmermann and Oliver Chramosta – for their efforts in this major project.

The biggest thanks, however, go to all those who can attend. We look forward to bringing you closer to the world of Austrian wine!

Cheers

# VIEVINUM 2021

29–31 MAY 2021 | VIENNA, AUSTRIA

## Incentive Programme for Trade (F&B Manager, Working Sommeliers & Restaurant Staff)

In the course of Austria's greatest and grandest wine festival – the VieVinum (Side Events: 27–29 May; Fair Dates: 29–31 May; [www.vievinum.at](http://www.vievinum.at)) in Vienna's Hofburg Palace – you will have the opportunity to taste some 2,500 wines from more than 500 producers, and then in the evenings enjoy the flair and delights of the cultural and culinary metropolis Vienna. What's more, the AWMB will be offering you a highly diverse programme of supporting events as well!

### Your invitation from the Austrian Wine Marketing Board (AWMB) includes:

- Admission to the trade fair for all three days – including the pre-opening for trade visitors (9 am - 1 pm).
- Access to the exclusive AWMB guest area: the Austrian Wine Press Centre & Restaurant offer a comfortable atmosphere for working and networking as well as lunch.
- Participation in the AWMB Side Events: Welcoming reception (Thursday evening) and Set tasting in flights (Friday during the day)
- On demand: the AWMB Welcome bags full of information and know-how.
- Discounted rate in centrally located 4\* partner hotels: 90€ per night with breakfast (including VAT), to be paid by the guest. The AWMB will underwrite the difference in the actual nightly charges for up to four nights, from Thursday 27 May through Monday 31 May 2021.

### **Type 1: Perlweine & Sekte**

Austria can look back on a venerable tradition of sparkling wine, one that dates back to the 19th century. Our specialists in the sparkling sector include private producers, as well as large Sekt houses. Whether Sekt g.U. at the Klassik level or the traditionally vinified pétillant naturel (Pét Nat), these wines are ideally suited not only to the classic role of apéritif but also prove their versatility as dinner-table companions. Fruit and refreshment share the foreground in these easily drinkable light sparklers (Perlwein) and Sekts.

### **Type 2: Sekt Méthode Traditionelle**

Traditional bottle fermentation is the most time-consuming and costly process for making sparkling wine: it takes a lot of time, and the typical ‘riddling’ of the bottles during ageing is often performed by hand. Austria’s top products – especially Sekt g.U. Reserve and Grosse Reserve – are produced according to this method. The result turns out as characterful and highly elegant Sekts, which do not need to fear any international comparisons.

### **Type 3: White wines - classic & refreshing**

Classic white wines from Austria get top marks for their freshness and fine acidity – which they combine with considerable elegance in a middleweight frame. These can be found in all our winegrowing regions: refreshing and regionally typical Grüner Veltliner & Riesling from the regions along the Danube River, delicious Wiener Gemischter Satz DAC, classic Weissburgunder & Chardonnay from Burgenland or spicy Welschriesling & Sauvignon Blanc from the Steiermark. Youthful wines such as Junger Österreicher, Steierischer Junger or Junger Wiener are the first to appear on the calendar in the classic & refreshing category, and can be tasted soon after the harvest.

### **Type 4: White wines - powerful & opulent**

These stars of Austrian white wine culture are vinified dry, exhibiting body and extract, opulence and concentration. In addition to the majority of classically elaborated wines, here you will also find wines matured in barrique with a bit of an international accent. Among the elite one finds single-vineyard wines vinified from Grüner Veltliner and Riesling (like Smaragd bottlings from the Wachau), and top wines from regions along the Danube or from the Weinviertel. Other very distinctive vinous personalities include robust Zierfandler and Rotgipfler from the Thermenregion, as well as complex Weissburgunder and Chardonnay from Burgenland. This category is rounded out by the great single vineyard wines from the Steiermark (Sauvignon Blanc, Morillon, Weissburgunder & Grauburgunder), as well as specialties such as Neuburger, Roter Veltliner and the Gemischter Satz from Vienna.

### **Type 5: Rosé wines**

Rosés are produced in all winegrowing regions of Austria and assume many forms: charming, youthful wines from Burgenland, or fresh stylings vinified from Zweigelt and Sankt Laurent in Niederösterreich, all the way to racy Schilcher from the Weststeiermark (some designated as a regionally protected Weststeiermark DAC). Burgenland also has its own protected appellation of origin for fruity-fresh and spicy rosé wine: Rosalia DAC Rosé.

### **Type 6: Red wines - classic & elegant**

Red wines in the classic style – with élevage either in large wooden cask or steel tank, with typical Austrian fruit but also plenty of depth, without being too high in alcohol – which express the typicity of their origins, with elegance and an inviting nature. Zweigelt plays an important role, since it grows quite happily in almost all viticultural regions – though Carnuntum comes up first here – and classically vinified Blaufränkisch can also be convincingly distinctive. This group is rounded out by specialties such as Sankt Laurent, Blauburgunder (Pinot Noir), Blauer Portugieser & Blauburger.

### **Type 7: Red wines - intense & opulent**

These are red wines that possess opulence, concentration, complexity and depth, vinified either as single varietal wines or as cuvées. Even with aging in barriques, these top wines are characterised by the typical depth of fruit characteristic of their terroir. The premiere destination for red wines of this sort is Burgenland – although top red wines can also be found coming from Carnuntum, the Thermenregion or even Vienna. It is satisfying to note that our typical Austrian grape varieties such as Blaufränkisch & Zweigelt might even do just a bit better here than classics like Pinot Noir and the international varieties Cabernet & Co.

### **Type 8: Alternative wines**

A precise definition of ‘Orange Wines’, ‘Artisan Wines’ or ‘Natural’ wines – often referred to collectively as ‘Alternative Wines’, does not exist. What they have in common, however, is that they often develop as far as possible without human intervention during their process of becoming wine. Owing to oxidative development and/or extended maceration time, the white wines will also develop a distinct tannin structure – and even some colour from the skins – in combination with fresh acidity and earthy fruit. Growers who produce exceptional wines in these new – or actually old – ways can be found in all of Austria’s winegrowing regions.

### **Type 9: White wines - off-dry & medium-sweet**

Wines in the upper Spätlese or Auslese class rank among the most ageworthy wines in Austria. In their youth they exhibit a great deal of finesse, combined with supple residual sweetness and a lively interplay between fruit and acidity. The palette ranges from Muskat Ottonel or Welschriesling from Burgenland, via (Gewürz)Traminer from the Steiermark, Grüner Veltliner and Riesling from various winegrowing regions, to the great Spätlesen or Auslesen vinified from the specialty varieties Zierfandler and Rotgipfler in the Thermenregion.

### **Type 10: Nobly sweet wines**

These include Beerenauslese and Trockenbeerenauslese, as well as the classy and refined Ruster Ausbruch. These rare sweet wines are characterised by ample residual sugar and highly concentrated acidity, usually in conjunction with the distinctive aroma of noble rot (*Botrytis cinerea*). Such wines continue to develop in an exciting way over a long period of time and have great ageing potential – and Austria plays here in the Champions League. Eiswein with expressive, luxuriant fruit and sizzling acidity – as well as Strohwein and Schilfwein, which exhibit flavour profiles between *Botrytis* and Eiswein – also belong to this category.

# JAMEK

In the history of Austrian wine making Josef Jamek played a pivotal role. In the 1950s he was one of a small number of pioneers who extremely focused on wine quality and launched ranges of dry and non-chaptalised wines with lower alcohol than was typical. Today the fourth generation of the Jamek-Family is taking care of the estates' vineyards. In top vignards like Ried Klaus and Ried Achleiten the typical varieties Grüner Veltliner and Riesling are planted. Some others like Muskateller, Pinot Blanc and Chardonnay are traditional varieties in the Wachau-Valley.

In addition to the winery, the estate runs a lovely restaurant next to the Danube in Joching, where regional specialities delight all the senses, along with the estate wines by the glass.

WEINGUT  
EMMERICH KNOLL

This family-run winery cultivates about 40 acres of vineyards in and around the village of Loiben. Nearly a third of these are planted in stone-terraced sites. In addition to the main varieties Grüner Veltliner and Riesling, Gelber Muskateller and Gelber Traminer are especially dear to the family. Chardonnay and Pinot Noir are completing the assortment. The best known crus are Schutt, Loibenberg, Kellerberg, Trum and Kreutles, and, in the nearby Kremstal, Pfaffenberg. Amongst classical, dry Wachau wines, dessertwines from the elegant style of Auslese wines to highly concentrated TBA's are produced, since the weather conditions allow. All Smaragd-type of wines are bottled and launched after aging in old, wooden casks, not before September of the following year.

Rainer was able to fulfill this dream with the founding of his winery in 2003, in a small rented cellar in the Unterloibner Kellergasse. Wine was made of purchased grapes from the best locations in the area. However, this cellar soon became too small and in 2009 they moved to the Krems area into an empty cellar of Wilhering Abbey. A modern, gentle and energy-saving grape reception was added to the old building. Today, the Winery Rainer Wess cultivates about 15 hectares and is a member of the Association of Austrian Traditionsweingüter. With Christina & David the second generation came to work at the Rainer Wess winery. To work together with Rainer in the pursuit of bringing the locations into the bottle - as unadulterated, inartificial and pure as possible.

Winzer Krems is one of the most significant producers of estate bottled quality wine in Austria. Its origins go back to the oldest wine growers association of central Europe founded in 1447. Until today WINZER KREMS guarantees the highest quality standard and maintains wine as a valuable cultural asset.

According to this tradition the grapes are still exclusively handpicked. Winzer Krems specializes in two unique Austrian grape varieties: Grüner Veltliner (white) and Blauer Zweigelt (red).

State-of-the-art equipment is used to extract the juice most carefully by pneumatic presses and to ferment under controlled temperature. The results are fine fruity wines with pronounced varietal character and pureness.

Since 1936, the interplay between the Pannonian climate and a unique diversity of soils in Langenlois has produced wines for our family-run winery that are authentic, balanced and rich in nuances.

High quality wines, however, need more than just favourable climatic and geological conditions. Our philosophy has always been driven by love and sensitivity, combined with our care for biological resources. We interlink the values of the past with today's challenges for sustainable standards of the future. We accompany our wines from the vine to the bottle with sense and sensitivity. You can feel, taste and experience our passion for wine-making. Our wines are typical for their variety and strong in character with style and expressiveness. Wines that are not only impressive, but enthralling!

For several years now, Fred Loimer has been ranked amongst the best white wine producers in Austria. In 2002, he was named Winemaker of the Year by Austria's Falstaff wine magazine.

"I like to surprise myself" says Fred Loimer. He definitely is and always was - good for surprises! Such as in 2000, in Langenlois, where he wedded a historical brick vaulted cellar with a minimalist black cube, thus creating a lovely architectural cellar ensemble. Or, in 2006, when he began to apply bio-dynamic methods to his vineyards. With that, Loimer founded one year later with fellow winemakers the respect BIODYN association, which focuses on the continuous and consistent implementation of biodynamic principles in viticulture.

SCHLOSS GOBELSBURG is the oldest winery in the Danube area Kamptal with a documented viticultural history dating back to the 12th century, when Cistercian monks from Burgundy started to work their first vineyards in the area. Gobelsburg has been run by Michael Moosbrugger (Falstaff Winemaker of the Year 2006, Golden glass Sweden 2007) since 1996. Grüner Veltliner and Riesling are the winery's most important varieties. Aside from the classic fruity and spicy wines, the winemaker's primary focus is on the different types of soil, as reflected in single-variety wines which are produced. In a new development, attention has turned to production methods from the winery's rich history. This is the idea behind the Grüner Veltliner TRADITION, which pays homage to the traditions of the 19th century.

# STEININGER

The family-run winery Steininger is situated in Langenlois in the Kamptal Valley. Lower Austria is well-known for the Grüner Veltliner and this is also the strength of the winery. Grüner Veltliner represents about 80% of their production. It can be found in different styles, from a light summer wine to powerful and voluminous full bodied wines as well as dessert wines. The Steininger winery is also well known for their sparkling wines which are produced according to the traditional method. Excellent base wines and vigilant second fermentation are the keys to obtaining great sparkling wines. All of the sparklings are single vintage and single varietal and represent their typical varietal characteristics: Grüner Veltliner, Sauvignon Blanc, Riesling, Muskateller, Traminer and Zweigelt in red.

The power of three

Three generations, three siblings, three spirits united: Maria, Ewald and Christian have found common ground in the family-run business in the western part of the Weinviertel region: wine. Whether in the vineyard, the wine cellar or in sales, each sibling concentrates on what they love and know best at the Gruber Röschitz winery. Wonderfully crisp Grüner Veltliner, fruity Riesling and delicately balanced St. Laurent and Pinot Noir grow in the organically cultivated micro-cosmos in Röschitz, Lower Austria. Granite, loess and clay soil as well as an airy and warm climate ensure unique freshness and minerality with fruitiness on the palate. The harmonious family atmosphere, combining traditional knowledge and new ideas, lends the wines a unique and harmonic character.

The work and success of Doris and Leopold Sutter is closely related to the natural management of their vineyards and the wines' careful maturing process. Their wine is characterized by careful pruning, controlled foliage, preservation of the vines, water-saving soil treatment and gentle manual work.

The assortment of Doris and Leopold Sutter is characterized above all by their Veltliner variety; Grüner Veltliner, Roter Veltliner and Frühroter Veltliner. All Veltliner grapes are grown and harvested from lime-rich soils, making the wines rich in minerals and taste mature. Other grape varieties are Riesling, Sauvignon Blanc, Gemischter Satz, Blauer Burgunder and Blauer Zweigelt.

Doris and Leopold Sutter export their wines all over the world.

ORGANIC not because it is fashionable, but because we have been living it for 35 years. Because we do not like chemistry, not in the environment, not in the water, not in the food and after all not in the wine. On healthy soil do not only grow vital grapes but also more exciting wines; especially if the development of wine in the cellar is given free rein to.

### OUR WAY: BIO-DYNAMIC

Circular economy: selfmade compost as fertilizer and conditioner, herbs grown in the own vineyard as retreat area and habitat for useful creatures as well as the basis of our extracts. Individual wine-growing maturing: fermentation of partial amounts in the amphorae, intercellular fermentation and sulfur-free storage of the NUMEN wines; adding of berries picked by hand to the fermentation of the REFLEXION wines.

The Winery is relatively small, possessing only 22 ha, but nevertheless it is a fine estate, and easy to manage. The Grassls like everything to be straight and clear-cut: main focus red wine, a straightforward range, a purist image, a functional cellar, unfussy labels, no gimmicky wines. The cellar is spotless, operations precise, wines are rarely filtered and grapes are handled with the utmost care, in order to sustain their quality right through the bottle. Quality what counts, producing in the best sense of the word 'grounded' wines, but at an international level of quality.

Wine has already been produced for 8 generations in the traditional estate in Traiskirchen on the line of the hot-springs. In the vineyard, the Stadlmann family pays great attention to curbing excessive yields in order to safeguard quality and to give ecological considerations their full due. This results in wines full of character and with great aging potential. Particularly precious are those wines indigenous to the Region, the Zierfandler and the Rotgipfler, which regularly achieve world class quality.

Only vines selected with regard to the terrain and the micro-climate are cultivated on the twenty hectare site and this forms the basis for sophisticated Pinot Blanc, Riesling and Grüner Veltliner and also St.Laurent and Pinot Noir.

Attentive observation of nature, biodynamic cultivation, unbridled biodiversity above and below the earth's surface: Gernot and Heike Heinrich's idea of terroir wines is based on a deep understanding of the diverse living environments within their vineyards. The aim is to create a natural balance in which vines, people, plants and animals act in symbiosis and form the decisive elements of a whole. The natural prerequisites are cool steep limestone slopes on the Leithaberg, a modulated topography with a warmer climate near the winery in Gols, and a handful of autochthonous grape varieties led by Blaufränkisch. Undogmatic, handcrafted vinification gives the wines the freedom to speak of their origins in an unadulterated and clear voice. They lay the foundation for continuous evolution.

### ESTERHÁZY WINERY - Pannonian diversity in the glass

For more than 250 years the cultivation of wine has been embedded in the genes of the House of Esterházy which has always been culturally and in particular culinarily firmly rooted in the Pannonian region.

The first class wines reflect the rich and independent character of the Leithaberg DAC region. So as to ensure that one hundred percent of this character is retained in the glass, emphasis is placed on the terroir of the best locations, international know-how and the most modern production technology.

The range of wines has been honoured by awards in Austria and abroad: Sparkling, Classic, Estoras, Leithaberg DAC, single cru wines full of character and Tesoro, the flagship of the House.

Erwin Tinhof owns vineyards in Eisenstadt, that grow on the slopes of the Leitha Mountains. The grapes nurtured are indigenous varieties, and this has been so for 11 generations. The 18 hectare estate is cultivated in tune with local nature; Erwin Tinhof practises dry farming and does not apply any use of insecticides or herbicides, nor artificial fertilisation, to any of his vines. The estate vineyards are up to 55 years old, and contain grape varieties that are virtually completely Austria, such as the white Neuburger, Weißburgunder (Pinot blanc) as well as the black varieties Blaufränkisch and Sankt Laurent. The wines are produced from estate vineyards and following a hand harvest and winemaking with minimal Intervention, the wines are bottled in Tinhof winery.

GESELLMANN

"We strive in harmony with nature each year to create wines that are rich in character and typical of the region." This is the motto that has accompanied Albert Gesellmann for many years and inspired him to convert to organic cultivation. The main focus is Blaufränkisch, which is found in the flagship wines "Opus Eximium", "hochberc" and "G". Albert Gesellmann's talent for international varieties is confirmed in the "Bela Rex" blend and "Chardonnay Steinriegel".

Christoph Neumeister is the third generation to run the renowned winery. The organically cultivated vineyards are steep and feature meagre limestone-sediment soils. The Illyrian-Pannonian combination climate and high precipitation levels can make cultivation challenging but allow a long growing season and late harvest. In the cellar, thoughtful and careful work is emphasized, including long maceration on the skins, spontaneous fermentation, long yeast contact periods and a late bottling. The results are structured and elegant wines with clear terroir. The premium wines come from top sites Saziani and Moarfeitl as well as Klausen and Steintal. In addition, the family runs the Saziani Stub'n restaurant and the boutique hotel Schlafgut Saziani.

Polz is more than just a name

Despite the fact that our wines have long been appreciated by wine lovers beyond the borders of our region and country, our vineyard has to this day remained a family-run business with all members of the family playing their part. And, as in all families, ours too encompasses many different personalities with a variety of strengths and characteristics that ultimately characterise the special quality of our wines.

The winery

Our vineyard is situated in one of the best wine-growing locations in the Styria region of Austria. The geological nature of the soil, the many hours of sunshine and well-distributed rainfall are virtually ideal conditions for vinicultural purposes. However, the quality of the wine cannot be solely attributed to the favourable vineyard.

Family Sattler place great value on working closely with nature to produce the wines. Since 2016 vintage, our wines carry the green seal of organic certification. We cultivate multiple small parcels in very steep slopes at optimal elevations. It is a very demanding task to deal with the unpredictable climate with abundant precipitation in Südsteiermark, but this is also what forms the inimitable character of our wines. For this reason, we categorize our wines according to origin: "Gebietsweine" are regional wines sourced from various vineyards in Südsteiermark, "Ortsweine" are village wines from Gamlitz and Eichberg vineyards; "Riedenweine" are single-vineyard wines from Ried Kapellenweingarten, Ried Sernauberg, Ried Kranachberg, and Ried Pfarrweingarten.

The sons Armin and Stefan represent the third generation of the winery. Both strive to continue their parents' work with the same quality awareness and sense for tradition. Together with father Manfred they produce origin accentuated and handcrafted wines gained by bio-organic vineyard management and low harvest yields. Their terroir wines show strong independence, reflect their region and soil and show great ageing potential. Elegant and balanced wines with puristic minerality.

Mayer am Pfarrplatz: The traditional winery produces since 1683 in Nussdorf high quality wine from Vienna's best vineyards, the chalk rich Nussberg and the cru Alsegg. The wines offer intensive, elegant fruitiness, good balance and minerality of the best Viennese vineyard sites.

The romantic landmark protected house of the winery Mayer is a synonym for Viennese wine and the epitome of Vienna's Heurigen culture.

Rotes Haus: The winery has probably the most beautiful and best vineyards of Vienna with an unbelievable view to Vienna and the Danube. Individual microclimate and soil award the wines from Nussberg exotic, spiciness and minerality. As a result of the uncompromising quality work you will find balanced, fullbodied wines with character and Viennese charme.

# Special Flights

## Austrian Rarities

In this special flight we will show you 4 rarities out of the Austrian Wine Cellars. Here come the stars of the Austrian wine culture: those great wines with aging potential; outstanding terroir wines that have captured international acclaim. All these wines are dry beauties, full-bodied and rich in extracts, density and depth. Apart from classically matured wines, there are also wines matured in small barriques that are enjoying high international standing. Especially Austrian reds matured in small wooden casks retain their pure, fruity aromas and flavours, and reflect true terroir characteristics.

### Austria's Sweet Wines

Austria is famous for its wide range of sweet wine specialities:

Spätlese and Auslese (fruity sweet wines), Beerenauslese, Trockenbeerenauslese and Ruster Ausbruch (nobly sweet wines), as well as Eiswein (ice wine) and Strohwein (straw wine) capture the imaginations of wine lovers around the world.

Nobly sweet wines in Austria have a remarkable and expansive history. Already in 1526, the first Trockenbeerenauslese was produced in the Pannonian region. At the von Leisser baronial estate in Donnerskirchen, a large quantity of shrivelled, raisin-like berries were harvested and pressed into an excellent wine.

More than a century later, in 1653, Prince Paul Esterházy acquired – together with the estate – this same wine and had it decanted into small casks. Whenever the wine was served –especially at noble festivities – boiled pebbles were added to the barrels so that their contents would once again be full; this was done in order to help prevent the remaining wine from oxidising. The last drops of this wine were tasted at the Forchtenstein Castle in 1852: for no fewer than 326 years, generation after generation of wine lovers was able to experience the pure pleasures of this legendary Prädikatswein.
